LOGNOTE -- Chief, Operations Group, 10 February 1983

1. [ ] DOMESTIC BUREAU--Met with [ ] Chief of the PDB Staff and Soviet Analyst, to explain that we are considering establishing a domestic bureau in FY-85 and to get his views on whether DDI would benefit from such a bureau. I explained the benefits of a domestic bureau, including the availability of Soviet TV in real time and a viewing room for analysts. [ ] said the DDI would obviously benefit from such an installation. Anything, he said, which brings important items to analysts faster or in more complete form is of benefit to the DDI. [ ] said that although PDB analysts would probably not derive any direct benefit from live Soviet TV, he felt SOVA and the Agency TV center would find it very useful.
